

### **§ 30.703**

(f) If the provider fails to make appropriate refund to the employee, or to credit the employee's account, within 60 days after the employee requests a refund of any excess amount, or the date of a subsequent reconsideration decision which continues to disallow all or a portion of the appealed amount, OWCP will initiate exclusion procedures as provided by § 30.715.

(g) If the provider does not refund to the employee or credit to his or her account the amount of money paid in excess of the allowed charge, the employee should submit documentation of the attempt to obtain such refund or credit to OWCP. OWCP may authorize reasonable reimbursement to the employee after reviewing the facts and circumstances of the case.

### **§ 30.703 What are the time limitations on OWCP's payment of bills?**

OWCP will pay providers and reimburse employees promptly for all bills received on an approved form and in a timely manner. However, no bill will be paid for expenses incurred if the bill is submitted more than one year beyond the end of the calendar year in which the expense was incurred or the service or supply was provided, or more than one year beyond the end of the calendar year in which the claim was first accepted as compensable by OWCP, whichever is later.

(a) Payment for medical and other health services furnished by physicians, hospitals and other providers for occupational illnesses shall not exceed a maximum allowable charge for such service as determined by OWCP, except as provided in this section.

(b) The schedule of maximum allowable charges does not apply to charges for services provided in nursing homes, but it does apply to charges for treatment furnished in a nursing home by a physician or other medical professional.

facilities of the U.S. Public Health Service or the Departments of the Army, Navy, Air Force and Veterans Affairs.

### **§ 30.706 How are the maximum fees defined?**

For professional medical services, OWCP shall maintain a schedule of maximum allowable fees for procedures performed in a given locality. The schedule shall consist of: an assignment of a value to procedures identified by CCPCS/CPT code which represents the relative skill, effort, risk and time required to perform the procedure, as compared to other procedures of the same general class; an index based on a relative value scale that considers skill, labor, overhead, malpractice insurance and other related costs; and a monetary value assignment (conversion factor) for one unit of value in each of the categories of service.

### **§ 30.707 How are payments for particular services calculated?**

Payment for a procedure identified by a CCPCS/CPT code shall not exceed the amount derived by multiplying the relative values for that procedure by the geographic indices for services in that area and by the dollar amount assigned to one unit in that category of service.

(a) The "locality" which serves as a basis for the determination of average cost is defined by the Bureau of Census Metropolitan Statistical Areas. OWCP shall base the determination of the relative per capita cost of medical care in a locality using information about enrollment and medical cost per county, provided by the Centers for Medicare and Medicaid Services (CMS).

(b) OWCP shall assign the relative value units (RVUs) published by CMS to all services for which CMS has made assignments, using the most recent revision. Where there are no RVUs assigned to a procedure, OWCP may develop and assign any RVUs considered appropriate. The geographic adjustment factor shall be that designated by Geographic Practice Cost Indices for Metropolitan Statistical Areas as devised for CMS and as updated or revised by CMS from time to time.
